22 years of continued quality in plant
material and service to our customers

* RETAIL SALES CATALOG *
* 1963 *

Ninety percent of the plant material we offer for sale is grown here on our nursery. The material we bring in for sale is purchased from top quality nurseries and is selected personally by Mr. Todd. It is also material that is hardy for our area and has been purchased from growers whose weather conditions are quite similar to ours. We feel these things are quite important to you in selecting your plant material.

Two of our SPECIALTIES are:

Flowering Crabapples (over 30 varieties)
Viburnums (12 varieties)

New Augusta Nursery is located at 5195 West 59th Street: or between Guion and Moller Roads, on the northwest side of Indianapolis, Indiana.

We make no guarantee on any plants other than that they are true to name, and of size claimed, and in no case will we be responsible except for the purchase price of the plant.

Members of:

AMERICAN ASSOCIATION OF NURSERYMEN
INDIANA ASSOCIATION OF NURSERYMEN
